April 2024

Active kids club

A parent-child workshop to prioritize physical activity.

Crazy kitchen

A new way to discover how our kitchen tools can be used to create different games.

Having fun with science

A workshop that allows children to learn new scientific experiences while nourishing their natural curiosity.

Healthy snack A workshop offered by an educator that includes an activity and a healthy snack. It will be followed by a discussion with parents on how to help children become better eaters.

House committee

Meeting to exchange ideas and suggestions to improve the services offered to families.

Learn through play and Learn through play – 24 months and under

Come and have fun with your children while promoting their physical, social, emotional, cognitive and language development. A great opportunity to exchange with other parents and socialize with people from your community.

Literacy day

Children discover the alphabet through fun and interactive activities that stimulate curiosity towards literacy.

Loose Parts

Loose parts are materials that can be moved, carried, combined, redesigned, lined up, taken apart and put back together in multiple ways.

Messy day

It's time to take the paint out and initiate children to different colours!!

Move and grow

Come develop your child's gross motor capabilities through a variety of activities using muscles and motor abilities.

My backpack

Families will choose a backpack which includes activities that stimulate your child's literacy skills, imagination, and creativity.

Nursery rhyme time

Join this workshop of Songs and Rhymes to please your little ones.

Off to school we go

This animation workshop offers continuing support for young children entering kindergarten in creating a partnership between families, school and community. The objective of this workshop is to facilitate the transition to school.

Sensory fun

Sensory activities that help children learn new sensory experiences while nourishing their natural curiosity.

Science and construction

Discover a variety of materials and explore what we can do with them

Watch me grow

This service helps families track their young child's growth and development. It's a developmental screening, assessment, referral, and education service for families of young children from birth up to the age of 6 years old. <https://eohu.ca/en/classes-clinics/watch-me-grow>

Yoga for little ones

Yoga helps the little ones develop concentration skills, self-esteem and body awareness using postures and specific exercises.

1,2,3 Let's count!

This numeracy workshop reinforces their skills and allows children to explore concepts through games and activities.

Workshops

April 24 from 9:00 - 10:00 am: Introduction to solid foods (english): Is your baby ready for solid foods? Do you have questions about introducing solids, food allergies or different approaches to weaning? During this virtual workshop hosted by a clinical dietitian, you will learn about complementary feeding and other baby nutrition topics.

April 15th from 9:00 to 11:00 am: Centre Novas "POWER COMES THROUGH KNOWLEDGE (French): Prevention of sexual abuse among our children is necessary to keep them safe. Get informed, ask questions. A counsellor from the Centre Novas, is present to help you learn how to talk about this with your kids 0 to 6 years old. (body parts, bad touches, secrets, self-esteem, etc.)"
